PRODUCT DESCRIPTION

SPONSER® LIQUID ENERGY SALTY is a highly concentrated energy gel with quickly as well as slowly available carbohydrate sources. Isomaltulose and barley fibres containing betaglucans are making Liquid Energy Salty to a new kind of carbohydrate gel.

Liquid Energy Salty is appropriate as an additional energy supplement for long distance performances, cause due to saturation reasons, sweet supplements are often not used consequently anymore towards the end of a competition. The salty but still neutral taste of Liquid Energy Salty can also be used as a pleasant alternative to convential gels for every kind of sport.

Liquid Energy Salty is a 100% natural energy concentrate without preservatives.

ADVANTAGES

- **High tech energy gel with quickly and slowly available kinds of sugars, particularly for long distances**
- **Salty taste**
- **Simple handling thanks to practical portion bags**

UTILISATION

Ideally during long lasting endurance performances. About 1 portion bag every 20 minute. Rinse with water.

As part of a varied and balanced diet.

INGREDIENTS

Glucose syrup, water, isomaltulose*, waxy maize starch hydrolysate, sodium chloride, soluble **oat** fibres (with betaglucans), potassium phosphate, tomato powder, acidulants (citric acid, ascorbic acid). *source of glucose and fructose.
