

ULTRA ENERGY COMPLEX HAZELNUT

developed for long-lasting endurance performances

SPORTS ENERGY CONCENTRATE

A liquid and highly natural energy concentrate, Ultra Energy Complex is based on carbohydrates and four vegetable oils containing Omega-3 and Omega-6 fatty acids. Providing high levels of top-quality fatty acids means two things: 1) that the body does not have to tap into its glycogen stores and 2) that it can perform more easily over an extended period of time. In addition, the L-carnitine contained in this product enhances both the lipometabolism and recovery. Free from lactose, gluten and artificial additives.

APPLICATION

Knead packet before use and empty content directly into the mouth, wash down with water. Ingest content of 1 to 2 packets per hour during long physical exertion.

| Nutrition Facts | per 100 g | per 25 g |
|---------------------------------------|-----------------------|----------------------|
